# Coin100

## Coin counting & bagging machine

The Coin100 is an entry level single denomination coin counting/bagging solution. It is mainly used for counting coins or tokens. It can continuously count and count to a preset number. It counts pre-sorted coins. The double dial adjustment allows simple setup. One setting of the dial is enough to select the proper denomination.

\*Coins which are smaller by at least 0.5 mm than the present set denomination are off sorted automatically. Count totals can be stored in memory.

With the Coin100 coin counting machine, businesses can quickly and accurate count and sort large quantities of loose coins. For single denomination currency this coin counting machine is the most accurate and fastest method to count and sort coins.
